Women's International Art Club — founded in Paris in 1900 — will celebrate its 75th Anniversary next year — 1975. An exhibiting Society of distinguished professional women artists, WIAC plans to include in its 75th Anniversary exhibition in January 1975 an historical section of photographs of some women artists in this century whose work is considered to have influenced painting generally and who have been in one way or another connected with the Society.

The exhibition this year at the Drian Galleries represents 60 members of the Society who have given us an insight into the feminine eye.
